DECORI CLASSICI

La selezione cromatica qui riprodotta è di tinta per interni. Per avvicinarsi al più possibile, le tinte devono considerarsi indicative. The color selection shown here includes shades for indoor use. Although care has been taken to make them as accurate as possible, these shades must be considered purely indicative.

La sélection chromatique reproduite ici est constituée de teintes pour l'intérieur. Même si elle se rapproche autant que possible des couleurs réelles, les teintes doivent être considérées comme indicatives.

Представленные здесь избранные цвета для внутренних работ должны приниматься как ориентировочные, насколько возможно приближенные к оригиналу.
